

# STICK IT WHERE THE SUN SHINES

Australian's have a habit of being told to stick things in dark places, but the LORENTZ range of solar pumps and controllers work better where the sun shines.

From swimming pools to stock water to irrigation  
- no fuel & no electricity.

Just sunshine and you're pumping.

\* PV modules at standard test condition: AM = 1.5, E = 1,000 W/m<sup>2</sup>, cell temperature: 25°C. All specifications and information are given with good intent, errors are possible and products may be subject to change without notice. Pictures may differ from actual products depending on local market requirements and regulations. A pump system consists of a controller, motor and pump end. Multiple pumps/pump ends are shown to represent the wide range of pumps (over 70) that LORENTZ has.
